

Description :

WALL MOUNTED IP55 CABINETS
Front blind door

Wall mounted IP55 cabinets are designed for the containment of the main equipment for structured cabling and LAN networks in environments where it is required a high protection degree. The solution with a new design allows the integration of a wide range of accessories needed in the most advanced hi-tech environments. Racks have an IP55 protection degree and are available with a depth of 450 or 600 mm, equipped with front blind door and hinged roof.
